SHA-256 (Query file):
c02bdd597340fb459d97eafe38375c73c512854d55e277b6e10357ebb16286ac

Methodology Summary

Grayscale conversion, size normalization, CLAHE, optional denoising, Otsu/adaptive binarization, multi-orientation Gabor ridge enhancement, thinning, minutiae extraction (ending/bifurcation) with filtering, and one-to-one constrained matching by distance/angle/type. For partial-print verification, the query minutiae are searched with translation and small rotation inside the reference frame.

Recorded Run Parameters

Parameter	Value
border_margin	12
min_distance	14
min_contrast	20

min_angle_diff	12
denoise_method	fastNlMeans
fast_denoise_h	10
gauss_ksize	3
original_zoom	100
partial_zoom	100
partial_shift_x	0
partial_shift_y	0
apply_preview_scale	True
auto_scale_normalization	True
auto_scale_factor_applied	1.4
MATCH_DISTANCE_THRESHOLD	15
MATCH_ANGLE_THRESHOLD_DEG	35
PARTIAL_VERIFY_SEARCH_RADIUS	80
PARTIAL_VERIFY_STEP_PX	10

Query Skeleton

Archive PNG files: `original_skeleton.png`, `partial_skeleton.png` in report folder.

Partial-to-Reference Alignment

Approximate alignment: $dx=45$ $dy=-2$ $rot=-17.0$ deg. Baseline matches: 7, final matches: 17, gain: 10, score delta: +4.88.

Green: matched reference points | Orange: matched partial points after alignment.

Statistical Comparison Results

Reference minutiae count: 87

Query minutiae count: 205

One-to-one matched pairs: 17

Match score (query-based): 8.29%

Fused Score: 22.02%

Combined verdict: Weak or inconclusive similarity — expert review advised

Decision mode: partial-first

Fusion Components - Minutiae: 8.29% | MCC: 34.72% | ORB: 0.20%

Score explanation: 17 / 205 = matched pairs divided by total extracted query minutiae. This is not area coverage.

Dice score: 11.64%

Forensic tier: Tier C - Low statistical similarity under configured thresholds

This system reports statistical metrics for fingerprint representation comparison under recorded parameters. It must not be used as sole identity proof and requires qualified expert review and lab SOP.

Internal status: LOW MATCH
